ADDENDUM TO THE JOURNAL

OFFICE OF LEGISLATIVE COUNSEL

Thursday - 23 February 1967

STAT 1. [] Mr. Kandela, in the office of Congressman Lawrence G. Williams (R., Pa.), called to ask us to assist the Congressman in a speech he is going to deliver in his district in which he would like to touch upon the current uproar over CIA. Congressman Williams was formerly associated with Curtis Publishing Company and during our first meeting in January indicated that he had great respect for the Agency and would be pleased to be of assistance. Mr. Kandela appeared to fully appreciate our desire not to go beyond the official statements made by administrative spokesmen, but I said I would see what factual material we might be able to gather from perfectly overt sources relating to the nature of the communist threat to take over the student and youth field in the 1950's. Mr. Kandela said they would certainly appreciate such assistance and I will try to drop this material off sometime Monday.

STAT 2. [] Spoke with Samuel R. Davenport, Editor, House Office of the Coordinator of Information, who had earlier inquired as to Agency relationship with the "Committee of Correspondence." I informed him that while we would like to be as cooperative as possible the only acknowledgment to date relates to the NSA and that we were not in a position to either confirm or deny any other relationship. Mr. Davenport said that he fully appreciated our position.

STAT 3. [] Called Miss Edna Boorady, Assistant General Counsel for Administration of AID. We agreed that there was no need for us to supply material at this time as backup support for the administrative leave provision of S. 1029. She appreciated very much our comments on this proposed legislation. (See Memorandum for the Record.)
